YEARS OF SUCCESS

UNIVERSAL POLYMERS
Manufacturing of Flexible Packaging Material

LATUR, MAHARASHTRA.

INTRODUCTION

UNIVERSAL-POLYMERS

Universal Polymers is a trusted manufacturer of high-quality flexible packaging materials, serving both domestic and international markets. With deep expertise in BOPP, CPP, Polyester Films, Laminates, Pouches, & Speciality Packaging, we deliver reliable & custom-engineered solutions tailored to diverse industry needs.

Our operations are based in Additional MIDC, Latur, where a state-of-the-art manufacturing facility integrates modern extrusion, rotogravure printing, flexographic printing, lamination, slitting, and pouching technology. Backed by an experienced workforce and strong quality systems, we ensure consistent performance, on-time delivery, and long-term partnership reliability.

A Mission to Surpass Boundaries!!

To expand our global presence through continuous improvement in products, processes, and systems while ensuring sustainable growth, customer delight, and value creation.

A Vision to Exceed Excellence!!

To become one of the world's most admired, innovative, and trusted manufacturers in the printing and flexible packaging industry.
